## Restricted Goods

---

Restricted goods are goods whose importation or exportation into Uganda is regulated and requires prior clearance by the competent government agency.

Restricted/Controlled goods may be imported or exported provided the importer or exporter has the necessary authorization/permits. For example, foodstuffs will require the proper permits from Health and or Agricultural Authorities, plants and plant products require clearance from the Ministry of Agro-Industry and Food Security, while pharmaceutical products require clearance from the Government Pharmacist.

NOTE: In case the authorities refuse to approve the application for a permit due to various reasons such as health, phytosanitary or security hazards, the imported goods would be liable to seizure.
