FOREWORD FROM THE **COMMISSIONER GENERAL**

Dear Taxpayers,

Uganda Revenue Authority is pleased to present to you a booklet on Tax amendments for FY 2021-22 containing amendments made in several tax laws.

In line with the budget theme of 'Industrialisation for Inclusive Growth, Employment and Wealth Creation', the changes in tax legislation are geared towards Government's commitment to import substitution, boosting local production, creation of employment, supporting local and foreign investment, easing the burden of tax compliance and encouraging compliance.

The amendments envisaged at growing domestic tax revenue will contribute to financing a great part of the National Budget and liberate Uganda from donor dependency. This will expand the tax base and increase the tax to GDP ratio to 13.8%

Key among the amendments is improving tax payer rights and dispute resolution by increasing the appeal process beyond high court, encouraging investment through providing ten-year income tax exemptions to specific sectors, providing incentive for the manufacturers whose investment capital is 50 million US Dollars and lowering tax rates for example excise duty on opaque beer to revamp production.

Government is also keen on closing revenue leakages through capping allowable deductions say for rental tax, reducing classes of depreciation to reduce on firms making tax

losses, levy taxes on exports such as tobacco leaf and fish maw to raise revenue and promote value addition locally.

In execution of the budget, URA will among other measures

- a) Strengthen tax arrears management and recovery;
- b) Enhance data analysis through interfaces with other Government information systems to enhance taxpayer compliance;
- c) Enforce tax compliance using the Electronic Fiscal Receipting and Invoicing Solution (EFRIS) and Digital Tax Stamps;
- d) Enforce enhanced licensing requirements for clearing and tax agents, and bond operators;
- e) Improve detection of smugglers using non-intrusive inspection equipment, and
- f) Close all Customs Bonded Warehouses for imported sugar for re-export to avoid undecларation and misclassification.

COVID 19 has affected many businesses and Government partly through these amendments has put in place several initiatives to enable businesses recover from the socio-economic setbacks caused by the pandemic.

I urge you to remain patriotic and take advantage of the Government initiatives and the new Tax amendments to stimulate growth.

John R. Musinguzi
COMMISSIONER GENERAL

TAX AMENDMENTS (DOMESTIC & CUSTOMS)

THE INCOME TAX ACT, CAP 340

SN	Amendment	Justification
1.	Introduce new definitions Beneficial owner: a) means a natural person who has final ownership or control of another person or a natural person on whose behalf a transaction is conducted, and includes a natural person who exercises absolute control over a legal person. b) in relation to trusts includes— i) the settlor; ii) the trustee; iii) the protector; iv) the beneficiaries; and v) any other natural person exercising absolute control of the trust; c) in relation to other legal person similar to trusts, means a natural person holding a position equivalent any of the positions referred to in subparagraph (b) above Consideration: includes, the total amount in money or of payment in kind, paid or payable for the supply of goods, services or sale of land by any person, directly or indirectly, including any duties, levies, fees, and charges other than tax paid or payable on, or by reason of, the supply, reduced by any discounts or rebates allowed and accounted for at the time of the supply or sale; Clarify the definition of An exempt organization to include a religious, charitable or educational institution whose object is not for profit.	• Uganda has adopted this definition just like its counterparts in the East African region to align with the internationally agreed definition. The current definition falls short of the internationally agreed definition of “beneficial owner” as per the Organization for Economic Cooperation and Development (OECD). • The purpose of this definition is to eliminate any ambiguity as regards what amounts to consideration under the Income Tax Act • To provide wording that is clearer than the current wording of the law which provides that the institution should be of a public character which is subjective in interpretation.

SN	Amendment	Justification
2.	Agro processing Government has repealed paragraph (z) of Section 21 (1) which provided for income tax exemption for agro processors. This paragraph was giving a blanket exemption to all persons earning income from agro processing. This has been narrowed down to specific sections within the sector and will only be applicable if certain conditions as to investment threshold and utilization of locally sourced raw materials, employment of citizens and their earnings are met.	• To generate revenue • To do away with duplication since a similar exemption is provided under section 21(1) (af) of the same law.
3.	Ten-year income tax exemption a) Government has made an addition to the strategic sectors qualifying for the ten-year income tax exemption - an operator in an industrial park or free zone or any other person who manufactures chemicals for agricultural use, industrial use, textiles, glassware, leather products, industrial machinery, electrical equipment, sanitary pads and for diapers.	• To encourage investment in the specified sectors
4.	Rental Tax Government has a) Capped up to 75 % of allowable deductions for expenditure and losses incurred in generating rental income. This applies to both individuals and non-individuals	• To ensure equitable taxation of rental income irrespective of the legal nature of the person deriving income. This will remove distortions which arise from capping the allowable deductions for a year of income of individual rental taxpayers, but allows unlimited deductions for non-individual rental taxpayers • This reform will remove the incentive for individual property owners to own properties through companies in order to claim fictitious deductions.
	b) Increased the rate for rental income tax for individuals from 20% to 30%.	• To generate revenue • To harmonize the tax regime for businesses and individuals by equalizing the treatment of individuals and non-individuals

SN	Amendment	Justification												
5.	Depreciation of assets Government has a) Reduced the classes of assets for depreciation purposes from four to three and reduced the depreciation rate as well <table> <tr> <th>Class</th><th>Assets included</th><th>Rate</th></tr> <tr> <td>1</td><td>Computers and data handling</td><td>40%</td></tr> <tr> <td>2</td><td>Plant and machinery used in farming, manufacturing and mining.</td><td>30%</td></tr> <tr> <td>3</td><td>Automobiles; buses, minibuses, goods vehicles, construction and earth moving equipment, specialised trucks, tractors, trailers and trailer mounted containers, rail cars, locomotives and equipment; vessels, barges, tugs and similar water transportation equipment; aircraft; specialised public utility plant, equipment and machinery; office furniture, fixtures and equipment; any depreciable asset not included in another class."</td><td>20%</td></tr> </table>	Class	Assets included	Rate	1	Computers and data handling	40%	2	Plant and machinery used in farming, manufacturing and mining.	30%	3	Automobiles; buses, minibuses, goods vehicles, construction and earth moving equipment, specialised trucks, tractors, trailers and trailer mounted containers, rail cars, locomotives and equipment; vessels, barges, tugs and similar water transportation equipment; aircraft; specialised public utility plant, equipment and machinery; office furniture, fixtures and equipment; any depreciable asset not included in another class."	20%	• Lowering the depreciation rate, reduces the number of firms making a "tax loss" and increasing chargeable income - ultimately resulting in higher Corporate Income Tax revenue. • To generate revenue by discontinuing concurrent deduction of initial allowances and depreciation in the first year of use of the qualifying asset • Increase chargeable income and tax payable for the first year of income in which the depreciable assets are first used.
Class	Assets included	Rate												
1	Computers and data handling	40%												
2	Plant and machinery used in farming, manufacturing and mining.	30%												
3	Automobiles; buses, minibuses, goods vehicles, construction and earth moving equipment, specialised trucks, tractors, trailers and trailer mounted containers, rail cars, locomotives and equipment; vessels, barges, tugs and similar water transportation equipment; aircraft; specialised public utility plant, equipment and machinery; office furniture, fixtures and equipment; any depreciable asset not included in another class."	20%												
	b) Postponed the deduction for the depreciation of an asset that qualifies for initial allowance to the next year of income. i. Wear and Tear deduction ii. Industrial building allowance This will discontinue concurrent deduction of initial allowances and depreciation in the first year of use of the qualifying asset.													

SN	Amendment	Justification
6.	Capital Gains Government has a) Provided for indexation in the calculation of capital gains tax in order to account for inflation. This means that before determining Capital Gains tax on a business asset, one will factor in inflation among others that influence the asset value. However, indexation shall not apply to an asset that is sold within twelve months from the date of purchase. b) Prescribed a formula for calculating the expense to be included in the cost base of a business asset when computing the gain or loss on disposal of that asset (Capital Gains Tax – Indexation). This only applies where the asset is sold after 12 months from the date of purchase of that Asset. Note: Indexation accounts for the inflation effect on each item of cost or expense included in the cost base of the asset. c) Provided for preferential treatment of capital gains tax for a venture capital fund registered under the Capital Markets Authority Act. Venture capital is a form of private equity and a type of financing that investors provide to startup companies and small businesses that are believed to have long-term growth potential. In this amendment, capital gains arising from the sale of investment interest of a registered venture capital fund will not be recognized if at least 50% of the proceeds on sale is reinvested within the year of income. A venture capital fund shall be entitled to a non-recognition of a gain or loss equivalent to the percentage of reinvested proceeds.	• To promote Investment Allowing inflation or valuation in establishing the real value of the cost base in order to determine the gain before application of the 30% tax rate will eliminate over taxation of tax payers and encourage acquisition of capital for investment in the country. • To reduce the cost of capital by promoting investment into high risk enterprises. • To promote investment since it will provide a much-needed incentive to venture capital funds to set up in the country.

SN	Amendment	Justification
7.	Exchange of Information Where an international agreement provides for automatic exchange of information for tax purposes, the Commissioner shall in accordance with the regulations made by the Minister facilitate the automatic exchange of information.	• To generate revenue from information generated both domestically and from reciprocal information obtained from treaty partners • To facilitate automatic exchange of information of non-resident persons with their tax residence jurisdictions, in accordance with the OECD (Organisation of Economic Co-operation and Development) Multilateral Convention on Mutual Administrative Assistance in Tax Matters • To incorporate and analyse reports on Financial account information available domestically with what is submitted in tax returns to ensure proper tax reporting of Financial Institutions and their clients. • Uganda will be able to access financial account information from offshore Financial Institutions by exchanging reciprocal financial account data with mutual treaty partners under Section 6 of the Multilateral Convention on Mutual Administrative Assistance in Tax Matters which came into effect on 1st Sept 2016.

SN	Amendment	Justification
8.	Listed institutions Government has added to the First Schedule of the Income Tax Act two institutions - the African Export – Import Bank (AFREXIMBANK) and the International and Union for Conservation of Nature	• AFREXIMBANK is an international organization whose host agreement with Government of Uganda entitles it to exemption. • International and Union for Conservation of Nature is an international organisation whose members are by agreement obliged to provide it with exemption and Uganda is a member
10.	Payment due date Government has re-introduced the payment due date for income tax purposes. This provision was previously contained in the Income Tax Act but was repealed with the coming into force of the Tax Procedures Code Act and the same was never replaced. Provision for the due date of payment of income tax as a result of a self-assessment or an assessment issued by the Commissioner shall be; i. in the case of self-assessment, on the due date for furnishing of the return of income to which the assessment relates; and ii. in any other case, within forty-five days from the date of service of the notice of assessment	• To enhance tax compliance. The absence of a due date for payment of tax in the law has resulted into taxpayers taking their time to pay the taxes self-assessed with no worry of interest accruing from delayed payment of tax.
11.	Tax refunds Government has amended the law to provide that a taxpayer shall be deemed to have submitted an application for refund on the date the application is received by the Commissioner. However, where the Commissioner requests for additional information, the application for refund shall be deemed to have been submitted on the date when the additional information is received by the Commissioner	• To cater for situations where the delay in refund is due to the delay in the taxpayer submitting the requisite documents for verification

THE VALUE ADDED TAX ACT, CAP 349

SN	Amendment	Justification
1.	VAT Exempt supplies a) The following items have been removed from the list of exempt supplies; • The supply of production inputs into limestone mining and processing into clinker in Uganda and the supply of clinker for further value addition in Uganda has been made standard rated. b) The following supplies have been exempted from VAT • the supply of liquefied gas and denatured fuel ethanol from cassava • the supply of services to a manufacturer other than [a manufacturer who engages in supply of locally produced materials for construction of a factory or warehouse and the supply of locally produced raw materials and inputs or machinery and equipment to an operator within an industrial park, free zone or an operator within a single factory or other business outside the industrial park or free zone]. Condition The investment capital of this manufacturer should be at least USD 30 million for a foreign investor or USD 5 million for a local investor, to conduct a feasibility study or to undertake design and construction, or in the case of any other manufacturer from the date on which the manufacturer makes an additional investment equivalent to USD 30 million for a foreign investor or USD 5 million for a local investor; ○ who has capacity to use at least 70 percent of the raw materials that are locally sourced, subject to their availability, and ○ Who has capacity to employ at least 70 percent of the employees that are citizens earning an aggregate wage of at least 70 percent of the total wage Bill.	• To promote strategic investments in the country • It is an incentive to encourage investment in the manufacturing sector.

SN	Amendment	Justification
2	Zero rated supplies The following supplies are now zero rated • The supply of leased aircraft, aircraft engines, spare parts for aircraft, aircraft maintenance equipment and repair services	• To promote the aviation industry by adding maintenance and repair services
3	Listed institutions Government has added to the First Schedule of the VAT Act two institutions - the African Export – Import Bank (AFREXIMBANK) and the International and Union for Conservation of Nature	• To promote trade by providing relief to banks that finance trade.
4	Input tax claim The amendment seeks to allow a period of six (6) months from the date of issue of the invoice within which a person can apply for an input tax credit.	• To streamline claims for VAT credit to ensure that tax payers do not file applications for refunds after a long period of time
5	Refunds The law has introduced a tax refund of 5% of the VAT amount, to be paid back to consumers who purchase goods or services from a taxable person and is issued with an electronic receipt or invoice worth five million shillings within a consecutive period of thirty days.	• To provide an incentive for enforcement of the use of the electronic fiscal receipting and invoicing solution.

SN	Amendment	Justification
6	Returns The law has created a separate quarterly return for non-resident suppliers of services deemed to be supplied in Uganda when made to non-taxable persons. A taxable person who is providing services to a non-taxable person in Uganda and is engaged in providing services in connection to. • Immovable property in Uganda; • Radio or television broadcasting services received at an address in Uganda; • Electronic Services delivered to a person in Uganda; • Transfer, assignment, or grant of a right to use a copyright, patent, trademark, or similar right in Uganda; • Telecommunication services other than those by a supplier of telecommunication services or services to a person who is roaming while temporarily in Uganda These shall be required to file returns within 15 days after the end of the three consecutive calendar months.	• To create a simplified regime for non-resident providers of services deemed to be supplied in Uganda.
7	Penalties Penalties on any taxable person who furnishes URA with information that is false or misleading regardless of whether it was done knowingly or recklessly or not.	• Compliance measure

THE EXCISE DUTY ACT, 2014

SN	Amendment	Justification
1.	OTT, internet data & Value-added telecom services Government has: a) Scrapped over the top tax (OTT) b) Introduced a harmonized excise duty rate of 12.0% on internet data except data for provision of medical services and education services c) Reduced excise duty from 20% to 12% on provision of Value-Added Services in Telecoms	• To generate revenue • To improve efficiency in collection (from data other than OTT which is highly evaded) • Remove multiple rates on various telecommunications services which pose a compliance challenge for taxpayers
2	Duty remission a) Where the Commissioner is satisfied that a plastic product • Is for use in packaging of products for export • Is for use in packaging medicaments • Is manufactures from recycled plastics, the Commissioner will grant a refund of excise duty paid. b) The Commissioner shall not remit excise duty paid on plastic product manufactured from recycled plastics & plastic packaging for medicaments, unless the recycled plastic used in the manufacture of the plastic packaging is equivalent to at least 50 % of the raw material used.”	• This is an incentive to encourage investment in manufacturing of the specified goods.
3	Scope of excise duty Government has a) Broadened the scope of taxation of plastics to cover all plastics b) Introduced excise duty of 2.5% or USD70/ton, whichever is higher on plastic product and plastic granules.	• To generate revenue. • To discourage the consumption of plastics and protect the environment.
4	Reduce excise duty Government has reduced the excise duty rate for opaque beer to 20% or shs. 230 per litre whichever is higher	• To revamp the product line. Production had ceased due to tax increase

SN	Amendment	Justification
5	Increase excise duty Government has increased excise duty on: a) Motor spirit (gasoline) from shs 1350 to shs. 1450 per litre b) Gas oil (automotive, light, amber for high speed engine) from shs. 1030 to shs 1130 per litre	• To generate revenue

THE STAMP DUTY ACT, 2014

SN	Amendment	Justification
1.	Government has in addition to earlier conditions necessary for stamp duty exemption for operators in strategic investment projects (specified in Item 60 A (iii) of the Second Schedule of the Stamp Duty Act) included: - Capacity to use at least 50% of the locally produced raw materials, subject to availability. - Capacity to employ a minimum of one hundred citizens This means that such investors must have capacity to use 50% of raw materials sourced locally and must be able to employ a minimum of 100 citizens.	Investment incentive for the manufacturing sector
2	Government has exempted a manufacturer whose investment capital is 50 million US dollars from stamp duty on execution of the following documents; - debenture; whether a mortgage debenture or not, being of a marketable security – of total value; - further charge; any instrument imposing a further charge on a mortgaged property –of total value; - lease of land – of total value; - increase of share capital; - transfer of land; - an agreement to provide services on conducting a feasibility study or developing a design for construction.”;	Investment incentive for the manufacturers whose investment capital is 50 million US Dollars

SN	Amendment	Justification
	Conditions for the above exemption a) In case of a new manufacturer, who is subject to availability, has capacity to use at least 70% of the locally produced raw materials, and employs at least 70% citizens with an aggregate wage bill of the new manufacturer and whose investment capital is at least 50 million US Dollars b) In case of an existing manufacturer who subject to availability has capacity to use at least 70% of the locally produced raw materials, and employs at least 70% citizens with an aggregate wage bill of the existing manufacturer from the date on which the manufacturer makes an additional investment equivalent of 50 million US Dollars
