Stamp Duty

Stamp Duty is amount of money (duty) payable on every document that confers/gives any right or liability upon being created, transferred, limited, extended, extinguished or recorded. These documents are referred to as instruments and they are listed in the Stamp Duty Act as amended and the duty rates specified therein.

Here you can declare your instruments, either single or bulk, and can pay stamp duty on them. You can also get duplicate stamp certificates.

Please use the links on the left to choose the right service.
